Kia ora Parents and Whānau

The weather hasn't played ball this week, but we have still managed to hold both our year 8 and our year 7 athletic sports. It was great to see our students out and about participating in each event and doing their best for their house.

House points will be totalled soon and we will find out who has been the winning house for 2022. Our prizegiving organisation is also being finalised and we look forward to celebrating the achievements of our fantastic students on Tuesday 13 December in the school hall. This event will be live streamed so that whanau who cannot make it to school, can watch from the comfort of their own homes.

If you are a parent of a year 8 student who has not yet completed an enrolment for Mount College, please do so as soon as possible. It is helpful for their planning and class composition if all enrolments are in and can be accounted for at their end.

Next week, we will have visits from our contributing schools so that the year 6's can have a tour around our school during the school day.

Have a great weekend everyone.

The Human Brain

An Instruction Manual - (caters to all ages)

Monday 28th Nov 2022 : 7:30pm - 9:00pm
Mt Maunganui Intermediate School - TAURANGA

Mount Maunganui Intermediate School is proud to announce that **Nathan Wallis**, the host of the documentary "All in the Mind", and co-host of the TV Series "The Secret life of Girls", is coming to our community with his talk - **The Human Brain - An Instruction Manual!**

Captivating audiences over 200 times per year to sell out events, Nathan has a profound reputation as a lively and engaging speaker. He uses humour and plain language to make this complex topic burst into life.

In this presentation, Nathan provides an informative narrative on how our day-to-day interactions with children and young people, significantly the early years, plays a critical role in defining later outcomes for our children. In this talk, Nathan will guide you through the stages of brain development from the first 1000 days and into adulthood focusing on "The Teen Brain". He will reveal little tricks that will hopefully make parenting easier, and help you open up communication with your child. You will walk away with a much better understanding of how both your child's brain and your own brain works.
